

MATH INFORMATION SHEET

Effective for students entering Fall 2023

Entering students must complete one course identified as satisfying the general education foundational quantitative analysis requirement. Each student will be assigned to one of the categories listed below based on SAT and/or ACT math scores, completion of high school math courses, and high school GPA. Students admitted without SAT or ACT scores may be subject to departmental evaluation to determine appropriate placement.

Category A

SAT Math 570 or above **OR** ACT Math 25 or above **AND** high school math assessment

Students placed in this category are free to enroll in calculus without any additional approval. Students may elect to take other level 100 or above math courses to fulfill general studies.

Category B

SAT Math 560 or below **OR** ACT Math 24 or below
Without ACT/SAT Math scores only: High school cumulative GPA above 2.6

Students in this category are preapproved to enroll in any of the following math courses: Math for the Liberal Arts, Elementary Statistics, PreCalculus, or College Algebra. *NOTE: Students who are placed in this category, but feel prepared to enroll in Calculus **MUST** complete the math evaluation prior to completing registration. Students interested in completing the evaluation should contact Professor Pam Wovchko at wovchko_p@wvwc.edu.*

Category C

Math 450 or below **OR** ACT Math 17 or below
Without ACT/SAT Math scores only: High school cumulative GPA 2.6 or below

***Students are not required to enroll as a condition of admission but are *highly recommended* to enroll in Developmental Algebra.**

*Students majoring in Accounting, Business Administration, Management, Marketing, Sport Business, Economics, or Computer Information Science are required to complete DEVL-070, Developmental Algebra as a prerequisite to enroll in BUSI-111, Principles of Accounting.

*Students majoring in Biology or Environmental Studies are highly recommended to enroll in DEVL-070, Developmental Algebra as preparation for taking BIOL-215, Biostatistics.

Category D

Some students with scores below SAT Math 450 or ACT Math 17 are REQUIRED to enroll as a condition of admission to the College.
